

FIGHTING HAS NOW COMMENCED

Russian Wounded Begin To Arrive In The
The French Port Of Caigon Today.

WHERE ARE THE JAPANESE BOATS?

No Definite News Of The Conflict Has As Yet Been Se-
ceived, But It Is Thought A Battle Has
Been Fought.

[SPECIAL BY SCRIPPS-M'RAE.]
Tokio, April 14.—It is officially an-
nounced that a state of siege was
declared on April 13th at the Harbor
of Makung, in the Pengu islands and
Pescadores. A naval court of inquiry
has been created at Makung and a
temporary naval prison established.

Wounded Seamen
Manila, April 14.—Rear Admiral
Traha has received a report this af-
ternoon from Caigon stating the Rus-
sian hospital ship Orel, which ar-
rived there yesterday, had on board
a large number of wounded seamen.

Report Is True
Washington, April 14.—The state
department has received a report from
the United States commercial agent
at Yokohama confirming the report
that the Russian hospital ship put in
to Saigon with wounded sailors
aboard.

No Definite News
Tokio, April 14.—No news was re-
ceived here of a reported naval en-
gagement off Saigon.

Togo Is Lying Low.
Togo's fleet has not been sighted
since the Russian fleet passed Singa-
pore. It is believed, however, that
his battleships, armored cruisers, and
destroyers are near his base in the
Pescadores islands, at the southern
extremity of Formosa.

At the Pescadores Togo would be in
a position to intercept the Russian
fleet, whether it attempted to pass
west of Formosa or tried to reach the
Pacific north of the island of Luzon.

Askold May Escape.
A dispatch to the Morning Post from
Shanghai says it is feared there that
the Russian cruiser Askold, and the
torpedo boat destroyer Grosoroi, which
took refuge there last August, are
preparing to slip out secretly and

join the Russian fleet. It is stated
that they have been coaled. Japan
has warned China, which, however,
would be powerless to prevent the
escape of the vessels.

A dispatch to the Standard from
Singapore states that the Russians
closely scrutinized the British cruiser
Sutlej when the latter passed them
and trained their guns on it.

Russians Waste Powder.

A dispatch to the Telegraph from
Vienna says news has reached the
Dutch legation there, ascribing the un-
founded report that a fight had oc-
curred between the Russian and Jap-
anese fleets to the fact that the Rus-
sians fired some rounds uselessly and
aimlessly, under the mistaken impres-
sion that the Japanese were approach-
ing.

Fleet Ready for Battle.

St. Petersburg, April 14.—The news
of the northward movement of Ad-
miral Rojstevsky's squadron, and his
evident intention to accept battle
whenever Admiral Togo chooses to
offer it has for the present stifled all
activities in the direction of peace and
the foreign dispatches relating to the
voyage of the squadron are followed
with the most intense interest.

The admiralty volunteers no infor-
mation regarding Rojstevsky's plans,
whether his immediate destination is
or is not Cape Padaran (on the east
coast of Cochinchina), but in naval
circles the impression prevails that
the squadron will continue northward
to the straits of Formosa, where, if
Togo does not elect to give battle or
is defeated, Rojstevsky may seize
a temporary base in Japanese terri-
tory.

blesome here. Armed citizens are pa-

ing Strong Rear Guards in
Position.

[SPECIAL BY SCRIPPS-M'RAE.]
Tokio, April 14.—It is reported the
main force of the Russians, which
retired in the direction of Hsingking,
have reached Kirin. It is re-
garded certain that twelve
thousand remain in the vicin-
ity of Harbin Chang and are
closely in touch with the Japanese ad-
vance guard, the main force of which
has retired over the Kirin road, as
reported at Kirin, with the rear guard

infantry, six squadrons of cavalry,
and four guns. The Japanese then
occupied Tsangshih, nineteen miles
east of Yangpan.

ed a number of small disturbances.

CUTS THROATS OF HER BABIES

Mother Kills Herself by the Same
Means, but Children Will Live.

Itasca, Wis., April 14.—In a moment
of apparent derangement, caused by
the loss of sleep, Mrs. Oscar Lomoe
arose from her sick bed and, procur-
ing a razor, slashed the throats of her
week-old infant girl and 6-year-old
boy, after which she inflicted a long
gash in her own throat. She died
after remaining unconscious for sev-
eral hours, but it is thought the chil-
dren's lives will be saved. The hus-
band and father is employed by the
Omaha railroad as a cashier and dock
agent at Itasca.

Who Was Objectionable to Them.

Hudson, Mich., April 14.—A young
and attractive woman was tarred and
feathered here by fifteen women and
four men, and forced to leave the
town, in which she had lived only a
short time. The woman's conduct was
objectionable and complaints were
made to the police. When no official
action was taken the vigilance com-
mittee of nineteen took the law in
their own hands. The victim left
town.

ror This Morning in the

New York, April 14.—Five people
were badly burned or injured in a

estimated at one hundred thousand
dollars.

SAFE ROBBERS SECURE \$8,500

Four Men Dynamite Safe in Private
Institution at Chur-
ubusco, Ind.

[SPECIAL BY SCRIPPS-M'RAE.]
Churubusco, Ind., April 14.—The
safe in the private bank of Oscar Gan-
dy & Co. was dynamited at 3:30 a. m.
Thursday and robbed of \$8,540. The
four robbers, who are fleeing in a
stolen rig, are being pursued in an
automobile owned by Banker Gandy.
Four suspects drove through Hunter-
town at 5 a. m.

Mrs. Oscar Gandy, wife of the bank-
er, was shot in the neck by one of the
bandits. She is not seriously wound-
ed.

Hold Citizens at Bay.

The explosion that wrecked the safe
was heard throughout the town and
in a few moments many persons were
on the street. They were received by
shots from rifles in the hands of two
men, who stood at the bank doors
and fired up and down the street, al-
though the time shouting to the people
not to advance. The work inside was
done by the other two robbers. The nec-
essary tools were taken from the black-
smith shop of Homer Cutter at mid-
night.

Building Is Damaged.
All the windows in the bank build-
ing were broken by the explosion,
which wrecked the safe. The interior
of the bank building and all the fix-
tures were so badly damaged that
they are practically useless.

The robbers overlooked two pack-
ages of currency, containing \$1,000
each, which were found on the floor
under the safe door.

On Lookout for Robbers.

Surrounding towns have been notifi-
ed to be on the lookout for and de-
scriptions have been furnished of two
suspicious characters who were in a
local poolroom Wednesday afternoon.

The bank is doing business as usual,
but with crude facilities. New fix-
tures and a new safe have been or-
dered. The bank is insured against
loss by burglary.

SPRING DUCKS NOT ALLOWED

Spring Shooting Will Surely Pass In Its Pres-
ent Form--Other Laws.

EATON CASE BEFORE THE SENATE

Cigarette Law Goes To The State Printer Today--Ten
Weeks Left Dealers To Sell
Stock.

[SPECIAL TO THE GAZETTE.]

Madison, April 14.—Spring shooting
is doomed. The assembly today ad-
vanced the Stevens bill, by the deci-
sive vote of 53 to 25, assuring its pas-
sage now. The Committee on the
Judiciary bill, obviating the required
five days to wait before marriage if
the parents of the bride attend cer-
emony, advanced their bill.

Two Appropriation Bills
The senate received three new bills
from their respective Committees,
one relating to casualty and surety in-
surance, another appropriating \$2,500
for the state purchase of the Replica
of Aloys Loeher's famous Columbia
shield and the other appropriating
\$5,000 for the state fish hatchery at
Minocqua.

One Appropriation Made
The bill raising the appropriation
for the State Legislative Reference

Library from \$2,500 to \$4,500 was
passed.

Prepare For Eaton Case
Almost the entire calendar was laid
over to give the Judiciary Committee
time to take up the Eaton case. His
attorney presented a transcript of his
testimony when on trial for bribery,
with notes to show that the indicted
senator had not violently slandered
the senate.

Rate Commission Funeral
The Senate Committee on railroads
made a last unsuccessful effort to
get together on the rate commission
bill and the chances for agreement
not look very dubious.

Give 'Till July 1
The Secretary of State is sending
the approved anti-cigarette bill to
the official paper for publication. The
dealers have ten weeks, that is until
July 1, to dispose of their goods now
on hand.

GAVE ULTIMATUM AS TO RATE COMMISSION BILL

Governor Takes Decided Stand On The Ques-
tion Of His Pet Measure Now in
The Balance.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., April 14.—The fact
seems to be established that Govern-
or La Follette has given an ultima-
tum to the senate that no railroad
rate commission bill will receive the
executive approval that does not give
the commission large powers and
put the railroads on the defensive
whenever the commission shall
change a rate that has been found
unreasonable or unjust. It is also
indicated that he is determined that
the commissioner shall be appointed
rather than elected, although his in-
sistence on the latter feature is less
absolute than upon the large powers
being conferred upon the commission.
The senate committee on railroads
is deadlocked over a few small
points in the proposed bill—small
points in language, but mighty in
the extent of power to be given by them
to the proposed commission. The
hardest nut to crack, it is said, is
the determination of whether the
roads may stay the application of a
rate made by the commission, by
merely filing an appeal from the
decision of the commission. The ad-
ministration senators claim that such
a stay would render the law inef-
fective and of no use, that the roads,
if they do not like the actions of the
commission, must test their demand
for a stay of execution by applying
for an injunction. They say that a
simple appeal would be made every
time the commission took the slight-
est action not fully approved by the
roads and that this appeal could be
put off from time to time so as to
drag along until no shippers would
have patience to hang on in the hope
of getting redress. The con-
servatives, together with some
senators believed to favor the admin-
istration, and also the democratic
members, seem to lean so strongly
toward making the bill mild in this
respect that the prediction is heard
that not infrequently that no railroad
commission will be constituted at the
present session of the legislature.

REMEMBERS THE TEACHER'S KINDNESS

Woman who Went to Assistance of
Stranger in Streets of Denver Is
Given \$35,000 by His Will.

Denver, Col., April 14.—Mrs. Walter
G. Owen of 430 Central Park West,
New York, has just been presented
\$35,000 as a bequest from a man she
aided while he was in trouble in Den-
ver many years ago. The giver is the
late A. Grinnell, a wealthy property
owner of Chicago. The clause in the
Grinnell will reads: "To Dagmar
Hansen, school-teacher of Denver, I
bequeath \$35,000." This codicil was
added just before Mr. Grinnell left
Chicago for Florida on what proved to
be his last trip, for he died soon after.
A member of the firm of Reed & Reed
of Chicago came to Denver and locat-
ed Miss Hansen.

It was during the winter of 1895
that Miss Hansen was hurrying along
Sixteenth street one day when she
saw an aged man slip and fall to
the ground, where he lay unconscious.
She went to his assistance, called a
carriage and had him taken to the
Brown Palace hotel. Her role of the
good Samaritan was continued for sev-
eral days and she frequently dropped
in to the hotel to inquire for the pa-
tient. A pleasing though short ac-
quaintance resulted. In the busy life
of the schoolroom the incident was
almost forgotten. Miss Hansen left
Denver in 1896 to accept a position
in the public schools of Chicago. She
had won fame by originating a cleverly
designed map in bas-relief which
attracted the attention of educators
all over the country.

Teaching was to be her life work,
she declared, but she reckoned without
considering the interference of Walter
G. Owen, a wealthy and aristocratic
broker of New York city. An affair of
the heart abbreviated her sojourn in
Chicago, and today she is the mistress
of a comfortable New York home.

This legacy from the aged man she
had befriended comes as a complete
surprise to the beneficiary.

ILLINOIS LAWMAKERS VEGETABLE HURLERS

Actors Who Eclipse Cherry Sisters
Bombarded With Miscellaneous
Assortment of Garden Truck.

Springfield, Ill., April 14.—Illinois
legislators threw cabbages and other
vegetables at the performers in a
vaudeville show by "home talent" at
the opera house. The scenes eclipsed
anything in the experience of the
Cherry sisters.

Anticipating a show that would war-
rant a "rough house," the legislators
flocked to the theater laden with the
cabbages and other vegetables that
they hurled at the actors. The cli-
max was reached when a negro per-
former came on in costume to recite
"Richard III."

The vegetables were all gone by
this time, but the "gallery gods" pulled
pieces of plaster off the walls and
hurled them at the stage. Much of
the plaster fell among the assembly-
men and the body of the house as well
as the stage was soon cleared of
everyone except the negro, who held
the boards until he had recited the
last line and had won a wager that
he would not be driven off. He wore
an old set of armor and this protected
him while he recited amid the fusi-
lade.

THE RICE INDUSTRY.

One of the new industries, which
is receiving special attention by the
government, is the cultivation of rice.
From a late report prepared for the
agricultural department by E. S. Bell,
British commercial agent at Chicago,
it appears that the acreage and pro-
duct has doubled in this country dur-
ing the past five years.This increase is largely due to de-
velopment of the industry in the
state of Texas, where the new rice
belt extends along the gulf coast
for 400 miles. Fifteen years ago these
lands were valued at from 25c to \$1.50
per acre. Today, with 30 rice mills in
full blast, producing 20,000 bar-
rels of rice per day, the land has in-
creased to \$12.50 per acre. The land
requires irrigation but the crop is said
to be profitable. The average crop
yielding about 320 per acre. Mr. Bell
says:"The following figures, on the ex-
pense and profits of a 1,000-acre rice
farm may be taken as accurate:
Estimated cost of land, improve-
ments, and equipment.....\$32,500
Cost per year for operating
farm after improved.....13,650
900 acres rice yielding 45 bush-
els of 45 pounds each, rough
rice, per acre, sold at 85c
per bushel.....34,425
Net income after deducting
annual expenses.....20,775
"Dividing up the investment among
six farmers, each would pay \$5,416
and would own 166 2/3 acres of land,
one-sixth of machinery, canals, fence-
ing, and levees, one house, stable
and well, four mules, and one set of
implements. The share of each far-
mer in the gross earnings would be
\$5,737 and his share of annual ex-
penses \$2,275, leaving the net profit
\$3,462."

THE YELLOW RACES.

It is too early in the day to predict
just what will be the result of Japa-
nese victory in the war now going on
with Russia. While sympathy is
largely with the Japanese nation the
fact should not be overlooked that the
people of Russia belong to the white
races, and the contest now going on
may be far reaching in results.Japan is an ambitious nation, but
she belongs to the yellow or Mongo-
lian races, and flushed with victory
she may not hesitate to assume su-
premacy. More than the defeat of
Russia may be involved in the out-
come, and while the present genera-
tion has no occasion for alarm, there
may come a time when the caucasian
and the yellow will contend for the
world's supremacy.America is already cursed with a
race taint from which the nation may
never recover. The color line is so
tinctured with white blood that it is
difficult to recognize it in many cases.
The nation inherited this curse as the
result of slavery and the experience
will not be repeated so far as Japan
is concerned.The colored population has doubled
in this country since the war, and is
increasing at rapid rate. The nation
boasts of a population of 80,000,000
strong, forgetful of the fact that nearly
one-fourth of this number belongs
to the Mongolian classes.As cultivation advances in the Phil-
ippine Islands the curse of intermar-
riage blood will keep pace, until con-
ditions similar to those which prevail
in this country, will be thoroughly es-
tablished.If the line is ever drawn between
the world's races, this mixed Ameri-
can population will be found with the
yellow classes. This is where they are
held today, regardless of intelli-
gence or environment. The race
problem may be world wide in sig-
nificance before the close of the
century.The investigation of the Equitable
Life Insurance company is likely to be
searching and thorough and the policy
holders will have an opportunity to
know how their money is invested.
The company has \$18,000,000 in-
surance in the state and some 7,500 policy
holders are interested.The merchants of Janesville are
spending from \$500 to \$500 per month
in good money for trading stamps.
Half the amount invested judiciously
in legitimate newspaper advertising
would produce more satisfactory re-
sults.With the primary election law in
full blast, and the dear people pro-
tected from corrupt caucusesand conventions it should be possible
to elect a rate commission free from
entanglements of any kind. What does
the primary election law stand for?The state of Nevada is just now en-
joying a mining boom. A La Crosse
man, who has just returned from the
state, reports that 6,000 people are
living in tents at Goldfield and that
the mines in that vicinity have taken
out \$4,000,000 in gold.The new commissioner of pensions,
Vespasian Warner, claims to be find-
ing many irregularities in the depart-
ment, and proposes to revolutionize
things generally. It is doubtless true
that there are many abuses connect-
ed with the pension service. The na-
tion is 40 years this side the civil
war but the pension list does not in-
terially decrease.If the governor really wants to go
to Washington; it is to be hoped that
the senate will find some way to ac-
commodate him. The state will
doubtless suffer from his absence, but
he has done so much for the people
that they are disposed to make any
reasonable sacrifice.Charley Pfister of Milwaukee, is
the butt of a good many jokes because
of the revival meetings advertised to
be held at his famous hostelry. Mr.
Pfister says that he don't want to be
a Methodist, and it is a part of the
agreement that no effort shall be made
to capture him by that denomination.It must be a little difficult for Sen-
ator Eaton to determine whether he is
going or coming. To the people not
directly interested it would seem that
the farce had gone far enough. Give
the man a trial and an opportunity
at least to vindicate himself.The chances are the senate com-
mittee will present a majority and mi-
nority report on the rate commission
bill. The conservative element favor
an elective commission, to which the
administration men are opposed.While the game wardens were
watching the lakes and the governor,
amateur sportsmen were busy taking
in the geese and ducks in advance of
the open season. The slaughter is
reported heavy in some portions of the
state.The president is having a seance
with wolves and rattlesnakes out on
the plains. He has the happy faculty
of leading a strenuous life under all
kinds of environments.Japanese and Chinese coolie labor
will be liberally employed on the

steps. Four steps would be high
treason and would cost their owner a

put the whole thing in a nutshell when
he said that "the proposition simply
resolves itself into whether or not
the most powerful political board that

ple, or whether these men shall be
subject to and become a part of a po-
litical machine to which they owe

probably more enjoyable to him than
the most elaborate White House
banquet ever laid. Amateur hunters
and fishermen find more flavor in a
pick-up lunch in the woods than in the
best of gorging. It would be bet-
ter for humanity in general if it could
get back toward the plain but whole-
some fare of the "chuck wagon."

SUDDEN DEATH OF WILLIAM CONWAY

Aged Rock County Man Passed Away
On a Bench on North Main Street
at Seven Last Night.

William Conway, aged 75 years, a retired Rock county farmer who had made his home latterly with his daughter, Mrs. Manley, at Sun Prairie in Dane county, died suddenly on North Main street shortly after seven o'clock last evening. F. G. Smith, who is proprietor of a barber-shop on the west side of the street, was one of the first to notice the man making his way down the east side of the avenue. As he passed the Wilbur place his limbs seemed to fail him and he tried to reach a bench that stood out in front, grasping a little metal box containing the apparatus used to hold the awning, at the corner of the storefront and was sinking down between the bench and the window. A man came out and moved him away from the window, stating that it was loose and would break if he leaned against it. By that time Mr. Smith had called the attention of Patrick Gallagher to the circumstance and the two crossed the road to lend whatever aid seemed necessary. They believed at first that the man was intoxicated, but afterwards were certain that he had not been drinking. When they had lifted him on the bench it was discovered that he was limp and helpless and that there was a piece of meat hanging out of his mouth. Mr. Gallagher removed this and the man had his head slightly and looked at him with an agonized expression on his face.

After that he exhibited no further signs of life and it dawned upon the little knot of onlookers that he was dying. While some ran for medical aid, those who remained behind felt of his pulse and attempted to hear his heart beat, but could discover no trace of life. It seems reasonably certain that he died several minutes before Dr. Fred Sutherland, Dr. Merritt and others arrived on the scene. Marshal Comstock, District Attorney Newhouse, and others were notified and the body was removed to Ryan's undertaking rooms where a post-mortem examination made by Dr. Sutherland disclosed the fact that there was a piece of ham in the throat. The physician stated that the death was due to choking. A pocket-book containing \$9 and some letters, which established his identity were found upon the dead man's person. After the circumstances of his death were learned by the officers it was decided that no inquest was necessary.

James Sennett who was an old acquaintance says that Mr. Conway occasionally had fainting spells that were due to heart disease. He had evidently been to a meat market and purchased some boiled ham just before death overtook him as a package of the meat, open at one end, fell from his hand at the time he was lifted to the bench. He had a long visit with Marshal Comstock, Mr. Sennett, and others yesterday morning. It had been his custom to visit at the Reed home while in Janesville but on this occasion he was stopping with the Ryan family on Wall street on account of illness in the former place.

Besides the daughter in Sun Prairie there is another, Mrs. Burt Hefferan, who lives near Leyden in the town of Porter, and a brother, John, living in the same vicinity. Mr. Conway was reputed to be in good circumstances, owning the farm on which his son-in-law lives. He was a man temperate in his habits and had many friends in Janesville and the other portions of Rock county.

Of course there is the scheming villain, the devoted lover, the wonderful escapes and the thrilling passages which belong to the modern novel, but the whole story is so sweetly told that the interest keeps up from the first chapter until the end of the book. In securing this story for its readers, the Gazette desires to announce that this story has never been published in book form and that its first appearance is in the columns of the Gazette. Watch for the opening chapters.

JOHN L. SULLIVAN IS COMING IN MAY

One Time King of Pugilists Will Appear at the West Side Theatre—Closed Next Week.

John L. Sullivan, the one-time king of the pugilists, will appear at the West Side theatre the week of May 15. "The great John" has been appearing at many of the largest playhouses in the west during the last few months and thousands have gone to see the ex-champion of the heavy-weight class and hear him tell stories of his own life. He does a monologue turn, relating experiences and few look for the really clever talker that he is, in the man who once fought seventy-five rounds with Kilrain. Hundreds of Janesville people who have never taken an interest in prize-fighting, who cannot name ten famous pugilists, will crowd to see him. Last week Sullivan appeared at the Bijou in Marinette and created a sensation in the city by shoveling snow in front of the theatre. An audience of no small proportions watched him labor, not because he needed the money, but to reduce his flesh.

Next week—Holy week—the West Side house will be closed. Extensive repairs will be made and some remodeling done. An orchestra pit will be built, carpets will be laid in the aisles, the stage altered and the paint brush plied. The theatre will reopen the week of the 24th with Constantine and Lawrence, presenting an European dancing act, as the top-liners. This evening is amateur night at the West Side and five acts by local talent will be presented after the regular bill.

Trouble at Welch Home: Robert Welch was taken into custody by the police last evening on complaint of a brother and sister from Monroe who are visiting at the home of his mother near the icehouse. FINGERS WEDNESDAY.

Accident Happened at Milton—High School Ball Team Defeated in First Game.

Wednesday's Program.

The program at the Fair Wednesday evening was a success. Orent's orchestra, not the college, furnished music, assisted by vocal talent, but the feature of the program was "Aunt Dinah," a typical southern darkey, personated by Mrs. W. K. Davis, who brought down the house with a cocom song and Swanee River. "Topsy," Miss Mildred McClafferty, was also in evidence. The attendance was good and the booths were well patronized.

Fourth Celebration.

This village is again due for a jolly good Fourth of July celebration. The matter should be taken in hand at an early date and the fire department placed in charge of the arrangements. Women Who Force
Themselves To Work

Women Who Suffer from All Manner of Uterine and Ovarian Troubles, Weak, Nervous, Bloodless, Melancholy Women Find a Positive Cure in

DR. A. W. CHASE'S NERVE PILLS.

Every day sees an army of worn out women dragging themselves to work or forcing themselves to attend to their household duties—women whose trouble lies in an overstrain or over-exertion at some time in the past—women who think themselves beyond repair, because they know nothing of the wonderful power of Dr. A. W. Chase's Nerve Pills to give them back their health, strength and vitality, by their ability to re-supply the lost nerve energy, to build up the system, to manufacture good rich blood, and give increased weight by making the digestion strong and vigorous.

Mrs. Ella Smith, of No. 48 Miller St.,

Newark, N. Y., writes:

"Last summer I was so weak I staggered when I walked. I was very nervous, easily excited, could not rest at night, blood thin, appetite poor, and hands trembled—I was in a low state of health. About this time I got a box of Dr. A. W. Chase's Nerve Pills and though everything else had failed, these pills put me on my feet in good health, and that quickly, too. It was not long before I was eating and sleeping well—the nervousness and trembling gone—the blood rich and my strength back. They are a grand medicine and I feel vigorous and strong in every way." 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. For a full and true nature of A. W. Chase, M. Portland Oregonian: Two brief but interesting reports on "savages" are embodied in recent paragraphs. The governor of Guam reports that the natives are "very dirty and highly religious." The south African native affairs commission reports that while the adoption of European clothing by the natives has promoted public decency it has injured the health of the wearers. How much better to be dirty, naked and highly religious than to be clothed in trousers, garters, socks, silk hats and strings of beads and be sick as civilized people.

CORDIAL INVITATION

ADDRESSED TO WORKING GIRLS

Miss Barrows Tells How Mrs. Pinkham's Advice Helps Working Girls

Girls who work are particularly susceptible to female disorders, especially those who are obliged to stand on their feet from morning until night in stores or factories.

Day in and day out the girl toils, and she is often the bread-winner of the family. Whether she is sick or well, whether it rains or shines, she must get to her place of employment, perform the duties exacted of her—smile and be agreeable.

Among this class the symptoms of female diseases are early manifest by weak and aching backs, pain in the lower limbs and lower part of the stomach. In consequence of frequent wetting of the feet, monthly periods become painful and irregular and frequently there are faint and dizzy spells, with loss of appetite, until life is a burden. All of these symptoms point to a derangement of the female organism which can be easily and promptly cured by Lydia E. Pinkham's Vegetable Compound.

Miss Abby F. Barrows, Nelsonville, Athens Co., Ohio, tells what this great medicine did for her. She writes:

"I feel it my duty to tell you the good Lydia E. Pinkham's Vegetable Compound and Blood Purifier have done for me. Before I took them I was very nervous, had dull headaches, pains in back, and months were irregular. I had been to several doctors, and they did me no good."

"Your medicine has made me well and strong. I can do most any kind of work without complaint, and my periods are all right."

"I am in better health than I ever was, and I know it is all due to your remedies. I recommend your advice and medicine to all who suffer."

It is to such girls that Mrs. Pinkham holds out a helping hand and extends a cordial invitation to correspond with her. Her long record of success in treating women's ailments makes her letters of advice of untold value to every ailing working girl, and from her wide experience and skill she quickly points the way to health. Her advice is free, and all letters are held by her in the strictest confidence. Address, Mrs. Pinkham, Lynn, Mass.

THE CLOTH IS PURE WOOL. Not a fibre of anything else in it. What a simple thing that is to say—and how difficult to do!

Every piece of cloth is subject to chemical test and the presence of anything but wool excludes it from the Clothcraft family.

Some of the cloth men think the Clothcrafters are foolishly particular and particularly foolish. Also they offer many "just-as-good" arguments.

But the Clothcrafters know of only one way to make all-wool clothing and that is to use all-wool cloth made of all-wool yarn containing nothing but pure wool fibres.

"Near-wool" looks pretty good in the piece but the truth will come out in the wear.

Wool holds its color and its firmness. There is no successful substitute for it—and yet Clothcraft clothes are the only ready-to-wear brand that are always and absolutely all-wool and nothing but wool.

And they cost less than any others of like value.
